EXPERIENCE

SOFTWARE ENGINEER INTERN | AT&T

June 2019 – August 2019

I am a Software Engineer Intern at AT&T in Dallas, TX. I am in AT&T's Technology Development Program (TDP) for the summer.

SOFTWARE ENGINEER INTERN | CBORD

August 2018 - Present

As a Software Engineer Intern, I primarily assist the development team with tasks such as planning, writing, and testing of software. I am directly involved with all the phases of the development process and am required to communicate ideas effectively.

SOFTWARE QA INTERN | CBORD

May 2018 - August 2018

As a Software QA intern, my toolkit includes: Java, Selenium Webdriver, Silk Test, Eclipse, and Jenkins to ensure proper functionality and integrity of the product. I automate the QA process through continuous integration software which emails error reports. I have automated testing for web, mobile, and desktop applications while at CBORD.

EDUCATION

BACHELOR OF COMPUTER SCIENCE/MAY 2020

Baylor University

I am currently a Junior Computer Science major at Baylor University. My education heavily focuses on Object Oriented Programming, Databases, Security, Efficiency and Data Structures.

ORGANIZATIONS

I am a TA for Intro to Computer Science and Competitive Cybersecurity. I am on Baylor's ICPC team which placed top 10 out of 80 teams. I am also on Baylor's Cybersecurity Team which placed top 8 out of over 21 teams in the area.
